

This 'Traffic Light Tool' forms part of a resource designed to help professionals who work with children and young people to identify, assess and respond appropriately to sexual behaviours.

By identifying sexual behaviours as **GREEN**, **AMBER** or **RED**, professionals across different agencies can work to the same criteria when making decisions and protect children and young people with a unified approach. The normative list aims to increase understanding of healthy sexual development and distinguish it from harmful behaviour.

This tool must be used within the context of the guidance provided at www.brook.org.uk/traffic-lights and should not be used in isolation.

What is a Green behaviour?

Green behaviours reflect safe and healthy sexual development. They are:

- displayed between children or young people of similar age or developmental ability
- reflective of natural curiosity, experimentation, consensual activities and positive choices

Expressing sexuality through sexual behaviour is natural, healthy and a part of growing up.

Green behaviours provide an opportunity to positively reinforce appropriate behaviour, and to provide further information and support.
