## Vision Statement

The Derby and Derbyshire Safeguarding Children Partnership vision is that all agencies work together to keep children and young people safe.

### Vision

The Partnership looks to achieve our vision by focusing on:

- ☐ **Prevention** through early intervention – We will work together to prevent harm at the earliest opportunity.
- ☐ **Joined up response** – We will respond bringing together the expertise of partners, strengthening protection for the most vulnerable.
- ☐ **Listening** – We will listen to and observe children ensuring their voice is heard even when they don't or can't speak out.
- ☐ **Identifying and Protect** – We will identify and protect those most at risk of harm by sharing information and data effectively.
- ☐ **Challenging** – We will challenge, learn and continuously improve, providing mutual support to help each other deliver the highest standards of safeguarding practice.

### Values

- ☐ **Tenacity** – acknowledges that there will be an element of endurance required by teams and individuals facing difficult and long term problem solving where solutions are not immediately apparent. In the area, effective inter-agency working is vital to maintain a focus on keeping the child safe.
- ☐ **Curiosity** – it is essential that we look beyond the immediate presentation to ensure that the concerns about children are not being masked or hidden by individuals, circumstances or a lack of curiosity on the part of those responsible for safeguarding.
- ☐ **Openness** – we need to be open and empathetic to the child and the perspective of other agencies. This includes an openness and honesty to challenge and be challenged so that the best decision in the interests of the child are made.
- ☐ **Respecting difference** – we will seek the view of children and families so that we understand and respect diversity. We will promote equality and inclusion in all that we do.
