

Information Sharing to Safeguard Children - How we work in Durham

You can share information about a child at anytime **without consent** if you suspect a child is at risk or to protect them from harm.

Sharing this information could save their life by getting them **the right help at the right time.**

For more information contact

"No single practitioner can have a full picture of a child's needs and circumstances so effective sharing of information between practitioners, is essential to keep children safe."

To share information with confidence, DSCP Partners can register for FREE e-learning courses at
