

## Emotion Fan

Help your pupils share their feelings by making an Emotion Fan.

Teachers often ask pupils for their reactions to different situations or ideas. As feelings are abstract concepts, they can't always be explained in a way that children with little or no English understand.

Pupils can show how they are feeling using these fans, or demonstrate how characters in stories might be feeling.

To make the fans:

- Print the pdf pages.
- Laminate them.
- Cut them out.
- Join the pieces together with a tie wrap or string.
